This is a Birthday greeting in verse for your Grandma Nygren. They were really sweet but very hard to translate. The verses are very flowery and pretty but I won't try to translate them as they die off doing so. It must have been a very good friend of your Grandma Nygren who wrote it. I know her name was Louise - and it is spelled as we spell it in Swedish. I think it has kept wonderfully since July 8, 1888.

Hjertlig gratulation

åt

Lovis Johansson

på födelsedagen den 8/4 88

Den dagen som du firar
Ett ädelt minne är.
Och värdet af det minnet
Jag i mitt hjerta bär.
